## **General:**

The Forest Service permits commercial filming & Photography on public lands. Like other commercial uses of National Forest System lands (NFS) and resources, commercial filming & photography require a Temporary Special Use Permit issued by the District Ranger.

Prior to the issuance of the permit, the Forest Service will determine if there are any environmental concerns in the proposed shoot location. The Forest Service may deny permits for filming that depict practices prohibited on NFS lands (i.e. operating vehicles off-road, maintaining an illegal campfire, littering, etc).

The Forest Service encourages use of environmental messages and depiction of environmentally sound practices in connection with the filming. Staff will work with the film producers on ways to incorporate such messages and practices in a manner consistent with the production.

## **Obtaining a Location and Permit:**

The production company should contact Inland Empire Film Services (IEFS) describing the type of location desired and the activity or effect to be captured on film. They may suggest areas that have the desired “look” saving the company hours of scouting or may refer the production company to the District Office for more detailed assistance. Once a location is chosen, obtain the permitting information from IEFS.

## **Insurance:**

The Special Use Permit requires that the permit holder indemnify the United States against any liability arising from the use or occupancy of NFS lands. The permit requires the holder to have their insurance company name the United States Government as an additionally insured party. The minimum required liability coverage shall be as follows: 1) General liability, each occurrence - \$300,000; 2) Property damage (each occurrence) - \$25,000; 3) Death or injury (to one person) - \$100,000; and 4) Death and injury (to more than one person) - \$300,000. A copy of a Certificate of Insurance **and** a letter of endorsement (ISO form # CG-20-12-07-98 or equivalent) will be required prior to the issuance of the permit. In the event that aircraft will be used, an **additional** Certificate of Insurance **and** Letter of Endorsement, naming the United States Government as additionally insured, in the amount of \$10 million is required (see “Aircraft” for regulations). Drones will require UAS/Aircraft Insurance in the amount of \$2 million. **NO HAND-WRITTEN CERTIFICATES OR ENDORSEMENTS WILL BE ACCEPTED.**

The following clauses must be shown **verbatim** on the Certificate or Binder and the Letter of Endorsement:

In the Certificate Holder Box: **“USDA, Mountaintop Ranger District, San Bernardino National Forest, P.O. Box 290, Fawnskin, CA 92333.”**

Box 290, Fawnskin, CA 92333, is additionally insured solely as respects liability arising from the operations of the named insured.”**

And

**“It is understood and agreed that the coverage provided under this policy will not be cancelled or its provisions changed or deleted before thirty (30) days written notice to the United States Government, in care of the USDA, Mountaintop Ranger District, San Bernardino National Forest, P.O. Box 290, Fawnskin, CA 92333.”**

**Cost Recovery:**

In order to respond to the needs of the industry, it is necessary for our representatives to put aside their normal work to process permit requests and conduct studies that may be needed to facilitate the use of an area.

In some cases, a Forest Officer or a third party monitor may be assigned to the production as a monitor to insure resource protection and public safety. The monitor will act as the District Ranger's representative approving or disapproving requests that may occur during filming. The monitor also has the authority to suspend operations for non-compliance.

The production company will pay expenses incurred by the Forest Service through Cost Recovery, depending on the amount of time necessary to process the permit application and monitoring if needed. (Processing and Monitoring are assessed separately). All Special Use Permits for filming on the National Forest are subject to Cost Recovery. The minimum charge in addition to the permit fees above is \$123.
