Front Country Ranger District
Cajon – Lytle Creek – Mount Baldy – Keenbrook
c/o Inland Empire Film Services, Inc.
(909) 460-8100,x101 ~ frontcountry@iefilmpermits.com

General:

The Forest Service permits commercial filming & Photography on public lands. Like other commercial uses of National Forest System lands (NFS) and resources, commercial filming & photography require a Special Use Permit issued by the District Ranger.

Prior to the issuance of the permit, the Forest Service will determine if there are any environmental concerns in the proposed shoot location. The Forest Service may deny permits for filming that depict practices prohibited on NFS lands (i.e. operating vehicles off-road, maintaining an illegal campfire, littering, etc).

The Forest Service encourages use of environmental messages and depiction of environmentally sound practices in connection with the filming. Staff will work with the film producers on ways to incorporate such messages and practices in a manner consistent with the production.

Obtaining a Location and Permit:

The production company should contact Inland Empire Film Services (IEFS), describing the type of location desired and the activity or effect to be captured on film. They may suggest areas that have the desired “look” saving the company hours of scouting or may refer the production company to the District Office for more detailed assistance. Once a location is chosen, obtain the permitting information from IEFS.

Insurance:

The Special Use Permit requires that the permit holder indemnify the United States against any liability arising from the use or occupancy of NFS lands. The permit requires the holder to have their insurance company name the United States Government as an additionally insured party. The minimum required liability coverage shall be as follows: 1) General liability, each occurrence - \$300,000; 2) Property damage (each occurrence) - \$25,000; 3) Death or injury (to one person) - \$100,000; and 4) Death and injury (to more than one person) - \$300,000. A copy of a Certificate of Insurance **and** a letter of endorsement (ISO form # CG-20-12-07-98 or equivalent) will be required prior to the issuance of the permit. In the event that aircraft will be used, an **additional** Certificate of Insurance **and** Letter of Endorsement, naming the United States Government as additionally insured, in the amount of \$10 million is required (see “Aircraft” for regulations). **NO HAND-WRITTEN CERTIFICATES OR ENDORSEMENTS WILL BE ACCEPTED.**

The following clauses must be shown ***verbatim*** on the Certificate or Binder and the Letter of Endorsement::

In the Certificate Holder Box: **“USDA, Front Country Ranger District, San Bernardino National Forest, 1209 Lytle Creek Road, Lytle Creek, CA 92358.”**

In the Description of Operations Box: **“It is understood and agreed that the United States Government, in care of USDA, Front Country Ranger District, San Bernardino National Forest, 1209 Lytle Creek Road, Lytle Creek, CA 92358, is additionally insured solely as respects liability arising from the operations of the named insured.”** And, **“It is understood and agreed that the coverage provided under this policy will not be cancelled or its provisions changed or deleted before thirty (30) days written notice to the United States Government, in care of the USDA, Front Country Ranger District, San Bernardino National Forest, 1209 Lytle Creek Road, Lytle Creek, CA 92358.”**

On the Letter of Endorsement: **“USDA, Front Country Ranger District, San Bernardino National Forest, 1209 Lytle Creek Road, Lytle Creek, CA 92358.”** And, **“It is understood and agreed that the United States Government, in care of USDA, Front Country Ranger District, San Bernardino National Forest, 1209 Lytle Creek Road, Lytle Creek, CA 92358, is additionally insured solely as respects liability arising from the operations of the named insured.”** And, **“It is understood and agreed that the coverage provided under this policy will not be cancelled or its provisions changed or deleted before thirty (30) days written notice to the United States Government, in care of the Front Country Ranger District, San Bernardino National Forest, 1209 Lytle Creek Road, Lytle Creek, CA 92358.”**

Cost Recovery:

In order to respond to the needs of the industry, it is necessary for our representatives to put aside their normal work to process permit requests and conduct studies that may be needed to facilitate the use of an area.

In some cases, a Forest Officer or a third party monitor may be assigned to the production as a monitor to insure resource protection and public safety. The monitor will act as the District Ranger's representative approving or disapproving requests that may occur during filming. The monitor also has the authority to suspend operations for non-compliance.

The production company will pay expenses incurred by the Forest Service through Cost Recovery, depending on the amount of time necessary to process the permit application and monitoring if needed. (Processing and Monitoring are assessed separately.) All Special Use Permits for filming on the National Forest are subject to Cost Recovery. The minimum charge in addition to the permit fees above is \$125.

Public Access:

Public access to the set may be restricted during rehearsals and actual filming periods. However, the closure of any area to the general public be considered on a case-by-case basis. The needs of Forest visitors must be considered when planning activities. Special Use Permits do not grant exclusive use.

Filming Schedules:

Filming may be restricted on weekends between 5:00 pm on Fridays and 6:00 am on Mondays.

Filming may not be allowed on holidays. Night filming will be considered on a case-by-case basis. Generally, night shooting will be restricted if residents of nearby campgrounds or private residences will be disturbed by noise, light, and other related filming activity.

*to avoid this fee, you can contact the USFS directly for permit processing – (760) 382-2851. This may also increase your permit processing time to 3 weeks or more.

Pyrotechnics, use of weapons, temporary construction, etc. will be considered on a case-by-case basis. All special effects must be approved prior to filming. In some cases, Forest Officers and/or fire suppression equipment will be required (See Collection Agreements).

Vehicle Operation:

- All roadways are to be kept open to the public.
- During filming, a road may not be closed for an extended period of time.
- Emergency traffic is allowed through at all times.
- Vehicles are not allowed off of legal roads. (Roads not shown on the Forest map are often illegal and cannot be used.)
- Parking areas will be determined prior to the shoot. Parking can be extremely limited and the use of shuttle vehicles is encouraged.

Winter Road Closures:

Some roads will be closed during the winter season to all vehicular travel. Gates are used to close these roads in order to protect the road surface and to provide non-motorized winter recreation activities. Other roads, although not closed, are not maintained during the winter season and may be impassable.

Aircraft:

Flight operations, flight paths, and landing zones must be approved in advance. Tail numbers, make, model, color, frequency monitored, etc., will be provided to the Federal Interagency Communication Center. A FAA approval, in writing, is also required. See "Insurance" for additional insurance requirements. A Forest Service monitor (at the expense of the production company) will be required for any production using aircraft. The company will provide direct radio communication between the aircraft and the monitoring ranger. All Federal and State aircraft regulations apply.

Drones:

Drones are allowed on a case-by-case basis. Contact IEFS for more details.

Representative:

A bona fide representative of the production company must be on the location at the time of the shoot. This representative is responsible for following the permit terms as well as any special direction required by the District Ranger.
